

PSYCHOLOGY

BACHELOR OF SCIENCE
PROGRAM (120 CREDITS)

PURPOSE

The program in Psychology is designed to prepare the student at a pre-professional level for entry into graduate or professional Studies. It will equip the student in foundational knowledge in psychology, human behavior, human growth and development, biblical education, and personal skills necessary to develop as a competent professional.

PROGRAM STUDENT LEARNING OUTCOMES

1. Students will clearly articulate in speech and writing psychological principles and concepts related to the field of behavioral sciences. This matches APA goal: Students will be able to communicate effectively in a variety of formats.
2. Students will locate information, critically evaluate, and apply the information related to human behavior and cognition. This goal corresponds with APA goal: Students will demonstrate information competence and the ability to use computers and other technology for many purposes.
3. Students will collaborate and apply psychological principles to personal, social, and organizational issues within clinical settings. This matches APA goal: Students will understand and apply psychological principles to personal, social, and organizational issues.
4. Students will assimilate their Christian faith and knowledge of psychological principles into clinical practice. This matches APA goal: Students will be able to weigh evidence, tolerate ambiguity, act ethically, and reflect other values that are the underpinnings of psychology as a discipline.
5. Students will utilize generalist knowledge, skills, and ethics to execute professional psychological practice with all systems, individuals, families, and groups. This matches APA goal: Students will emerge from the major with realistic ideas about how to implement their psychological knowledge, skills, and values in occupational pursuits in a variety of settings.
