#### SECTION I: PROGRAM INFORMATION

### **Teachers Prepared**

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

Academic Major

#### THIS PAGE INCLUDES:

- >> Teachers Prepared by Subject Area
- >> Teachers Prepared by Academic Major

### **Teachers Prepared by Subject Area**

Please provide the number of teachers prepared by subject area for academic year 2023-24.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. (§205(b)(1)(H))

#### What are CIP Codes?

No teachers prepared in academic year 2023-24

If your program has no teachers prepared, check the box above and leave the table below blank (or clear responses already entered).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<a href="https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55">https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55</a>).

### **Teachers Prepared by Academic Major**

Please provide the number of teachers prepared by academic major for academic year 2023-24. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. (§205(b)(1)(H))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education—Chemistry" category.

#### What are CIP Codes?

### **Program Assurances**

Respond to the following assurances. Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. (§205(a)(1)(A)(iii); §206(b))

THIS PAGE INCLUDES:	

>> Program Assurances

- 7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.
  - Yes
    - No

No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

The following specific courses address the items checked above: Multicultural Education, Introduction to Exceptionalities, Methods of Teaching ELD, and Inclusion and Collaboration. In addition, educational foundations courses address issues such as instructional decisions teacher candidates will face in the classroom, working with children with diverse needs, individualizing instruction for ESL children, and assisting children and their families of low income. All teacher candidates have extensive field experiences and student teach in suburban and urban/suburban districts. During the student teaching semester, the above issues are discussed in the student teaching seminar because student teachers face these challenges in their cooperating schools. Our Field Experience Coordinator maintains close contact with area cooperating teachers regarding the specific needs of the PK-12 classroom. Education faculty attend yearly conferences of the Pennsylvania Association of College Teacher Educators to keep abreast of state hiring

#### **Annual Goals: Mathematics**

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

#### **Assessment Pass Rates**

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. (§205(a)(1)(B))

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

### **Summary Pass Rates**

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. (§205(a)(1)(B))

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

### **Use of Technology**

1. Provide the following information about the use of technology in your teacher preparation ${f r}$	program. Please note that choosing 'yes' indicates that
your teacher preparation program would be able to provide evidence upon request. (§205(a	<u>a)(1)(F))</u>

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction
  - Yes
- b. use technology effectively to collect data to improve teaching and learning
  - Yes
- c. use technology effectively to manage data to improve teaching and learning
  - Yes
- d. use technology effectively to analyze data to improve teaching and learning
  - Yes No
- 2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

In their Sophomore year, all teacher candidates enroll in Educational Technology. This three-credit course provides an in-depth examination of technology used in educational settings. Included are digital media applications and an opportunity to become certified in Google Classroom. The integration of media into the lesson planning process is a crucial component of the course. All student teachers complete a Teacher Work Sample (TWS) which entails preparing and teaching a unit through which they collect and analyze data to inform and improve instruction. In addition, all teaching methods courses include a portion of instruction in which teacher candidates are taught to collect and manage data from various forms of assessments and how to analyze that data to improve instructional planning.

SECTION VI: TEACHER TRAINING

### **Teacher Training**

- 1. Provide a description of the activities that prepare general education teachers to:
  - a. Teach students with disabilities effectively

Students in all education programs take at courses in special education, multicultural education, and assessment (which includes assessment of students with special needs). All lesson plans written by teacher candidates in methods courses must include a section that describe accommodations and adaptations to meet diverse student need. Clinical field experiences and student teaching take place in inclusive classrooms where teacher candidates interact with and plan and deliver instruction for students with varying special needs.

Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the Individuals with Disabilities
 Education Act.

Clinical field experiences and student teaching take place in inclusive classrooms where teacher candidates interact with and plan and deliver instruction for students with varying special needs. Student teachers work with cooperating teachers and building specialists to participate in planning for and instruction of students with special needs, according to their IEPs. Student teachers participate in IEP meetings.

c. Effectively teach students who are limited English proficient.

All public school certificate teacher candidates take a 3 credit course in teaching English Language Development, which includes a field based experience in a school or program populated by English Learners. In addition, students in all methods courses learn techniques for meeting the needs of students who are limited English proficient.

- 2. Does your program prepare special education teachers?
  - Yes
  - No

If yes, provide a description of the activities that prepare special education teachers to:

a. Teach students with disabilities effectively

Along with regular program courses in special education that all public certificate teacher candidates must take, those enrolled in the special education program take 12 extra credits that specifically prepare them to teach students with special needs. These courses address teaching children with high and low incidence disabilities, behavioral interventions for students with disabilities, and language and literacy development for students with disabilities. In addition, all special education pre-service teachers are involved in field experiences and student teaching where they are mentored by special education professionals in classrooms that serve children with disabilities.

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

We share the experience of many PA teacher education programs in that enrollment in our certification programs decreased over the course of several years. However, enrollment has increased over the past two years and we are hoping that trend will continue. We are happy to report that program completers are obtaining certification and finding jobs in the teaching profession. We continue to work to recruit students from all backgrounds to enroll in certification programs. Faculty and student workers now receive specialized training to assist in the recruitment, admissions, and retention process. Currently, we are recruiting through social media more effectively. In August of 2022 we launched our master of education leading to ESL PK-12 certification. Teachers from the Phoenixville Area School District have enrolled in courses in this program as part of their profession development program.
